KonamiCodePlugin
MondrianPlugin
PackageTasksPlugin

Add

Selected plugins:

| Plugin name | Position |
|----------------|----------|
| PackageTasksPl | bottom |
| BreadCrumbs | middle |
| AnnotationPane | top |

Remove

This plugin shows the tasks in the current package.

A task is a method which sends `#flag:` to mark it as `#todo`, or `#fixme`, or whatever task you want to fix.

Clicking in the specific task makes you jump to the marked method.
